

## 2024 Fall Semester Unified Mid-term Examinations

Date: October 15, 2024

1. Except for courses where the instructor has separately applied for a unified exam and examination-exempt courses, all mid-term and final examination dates are decided by the instructor leading the course and then announced to students in class. Students may ask instructors for specific exam details.
2. Unified exams must be applied for in advance. After the entity (department, school, etc.) opening the course has arranged the exam venue and time, that information will be posted in the Newest Information section of the Office of Academic Affairs website, during the 6th and 15th weeks of each school semester.
3. Examination-exempt courses (including physical education, internships, lab courses, etc.) will hold normal educational activities during the mid-term and final exam weeks. Students must attend on schedule.
4. If a student is unable to join a unified exam, they must contact the person in charge at the entity (department, school, etc.) opening the course and arrange make-ups, in order to uphold their rights.
5. Students who are unable to participate in an exam as originally scheduled must complete an exam week leave application, in accordance with the Student Affairs Office's Guidelines of Leave Application for Students; personally bring the leave record card to the Office of Academic Affairs' Curriculum Development Division; and then request a make-up exam.
6. In order to guarantee students' rights to a quality education, instructors can only make adjustments to course schedules and exam schedules after reaching consensus with all course students.
7. Unified exams by course this time are as follows (use Ctrl+F to search):
